

# Domestic Hot Water - Repair

Get hands-on, practical experience repairing unvented domestic hot water installations: measurements, verifications, safety precautions, troubleshooting, and fixing devices and systems in virtual reality. Immersive, engaging, and educational, all-in-one. Quickly and easily update to the latest tech, information and regulations. Practice safely in any location on a variety of systems with an advanced toolset, with only a headset, no heavier than an electric drill.
